

## **Real Life 101 Episode Synopsis**

### **Eps 310-319**

#### **2019-2020 season**

##### **EPISODE 310**

Today, we're bringing back some of our viewers' favorites from last season. We'll start off at the TV studio where Helena met a former NFL Super Bowl champion. He shared his inspiring story of what he's accomplished by putting forth his best effort in every aspect of life, even when things didn't always go his way.

We'll also bring back a very moving story from a woman who was a victim of human trafficking from an early age. She talked to Shawn about how she has arisen from the abuse to open a community coffee shop – as well as help others and bring awareness to human trafficking.

Putting clues together to solve who committed a crime is a difficult task. We'll see an encore of Helena's interview with a crime scene supervisor who gave her some insight into his challenging career.

##### **EPISODE 311**

We continue to take a look back at some of your favorite interviews from last season. We'll revisit the classroom where Shawn met a teacher who keeps his students interested and learning more by integrating art into STEM classes.

If you are interested in computers and statistics, you won't want to miss the encore of Helena's interview with a research professor who introduced her to the world of data science – one of the hottest careers around!

Then we'll take you back to the launch pad at Cape Canaveral where Shawn met up with a structural engineer. He told him about his exciting job being part of a team that prepares for rockets to be launched into space.

##### **EPISODE 312**

We're going to bring you an encore of three of our most popular interviews from last season. Looking for a career where you can really reach for the stars? You won't want to miss the replay of Shawn's fascinating and informative interview with a veteran NASA astronaut.

When works of art get damaged or faded, especially when they're valuable or have sentimental meaning, it's a shame to just let them go. We'll bring back Helena's interview with an art conservator and learn how she preserves and repairs art.

Ever wonder what it's like to be a rock star performing on a stage in front of thousands of cheering fans? We'll bring back Shawn's interview with a musician who shared his journey of becoming a successful singer, songwriter and bass player.

#### EPISODE 313

If you're a pro-wrestling fan, you may have seen our first guest on TV. Shawn will talk with a former WWE superstar who is now serving the residents of his city as mayor.

Then Shawn will talk with an airport operations manager and learn about the many duties that are involved in running a busy and expanding airport.

And if you are into engineering, architecture and roller coasters, we might have the perfect job for you! We'll visit SeaWorld Orlando where Shawn talks with a man who designs many of the thrill rides and attractions at the park!

#### EPISODE 314

Most pilots try to avoid flying into extreme storms when they can. But Shawn will meet a man whose job is to fly directly into and through tropical storms and hurricanes as a NOAA hurricane hunter pilot.

Who would you call if you had a venomous snake in your bathroom or a raccoon in your attic? Shawn will introduce us to a man who captures these critters and more and removes them from homes and properties.

Plus, Shawn will talk with a law student about what it's like going through law school and working as a summer law clerk serving the low income population.

#### EPISODE 315

The old time barbershops are making a resurgence with a new look. Shawn will meet a barber who loves using his creativity to give his clients a trendy new cut . . . as well as providing a listening ear.

There are many ways to further your career once you become a firefighter. We'll talk with a hazmat team member and learn why he chose this specialty within the fire department.

Wonder what it takes become a licensed architect? Shawn will introduce us to a young lady who will give us a look into the education, training and licensing required.

#### EPISODE 316

Interested in a thrilling job in meteorology and aviation? We'll take a visit to NOAA's Operations Center where Shawn meets up with an onboard meteorologist who flies through the worst weather Mother Nature can deliver.

The horrific act of human trafficking is occurring in cities and towns all over America and throughout the world. Shawn will talk with an investigator whose job is to fight this abuse of innocent victims.

On a lighter note, we'll meet a restaurateur who grew up in – and helps run the Italian restaurant his family owns. He shares with Shawn some of the secrets to the restaurant's success.

### EPISODE 317

There are many children who have been abandoned and abused in our society. Shawn will speak with an attorney whose job is to be an advocate for these children and ensure they thrive in a safe home.

There are a lot of factors that need to be considered when designing and developing a structure. Shawn will meet with an architect and get some insight into his career making his client's dreams come true.

You may know someone with diabetes or other disease that affects the glands. Shawn will visit an endocrinologist and see how he treats these conditions and improves his patients' lives.

### EPISODE 318

Shawn is going to get a glimpse into a career in data science that wasn't around in our parent's day when he speaks with the manager of business intelligence at a utility company.

Then he will meet a woman who shared with him how she turned her imaginative and artistic abilities into a successful career. We'll also see some of the uplifting books and items she creates!

Plus Shawn will talk with a project manager at an architectural firm. He'll learn how he turned his love of art into a career working on a team to design and build the projects his company is awarded.

### EPISODE 319

We'll take you to a fire station where Shawn meets the county's fire chief. He learned that being on the administrative side of the department is quite different from that of a fire fighter.

Hurricane hunter planes are equipped with a lot of equipment that helps in gathering information about a storm. Shawn will meet an electronics engineer who designs and installs the instrumentation as well as rides in the plane during a mission.

Plus, he will talk with a lawyer who finds her passion in being a voice for the underserved and ensuring they have access to healthcare.
