

RON HAZELTON'S HOUSECALLS
EPISODE SYNOPSIS
SEASON 24 (2022-2023)

EPISODE # 2307

This week on HouseCalls, Ron shows how adding a three dimensional pattern to the ceiling not only gives a room more interest, but it can also change the way you feel when you're in that room. Then he explains why measuring can be seriously important when it comes to many DIY projects and he shows us how to get accurate results in an especially tricky situation. That's this week on HouseCalls.

EPISODE # 2308

This week on HouseCalls, Ron shows us how to make a customizable wall shelf using a 3D Printer. Then he shows us how to choose the right blade for an oscillating tool. And finally, he introduces the latest kitchen and bath innovations from The International Builders' Show. That's this week on HouseCalls.

EPISODE # 2309

This week on HouseCalls, we'll learn how to turn a ceiling into an impressive focal point using metallic ceiling tiles - and the results are stunning! Then Ron shows us how to cut perfect circles of any size and finally, he'll show us how to make mind-bending puzzle that will mystify anyone who sees it! That's this week on HouseCalls.

EPISODE # 2310

This week on HouseCalls, Ron shows us how faux ceiling beams add a rustic flair to just about any room. Best of all, they're easy to install. Then he demonstrates why a portable drill-press is the ideal tool for boring perfectly straight, perpendicular holes. That's this week on HouseCalls.

EPISODE #2313

This week on HouseCalls, Ron demonstrates a clever way to remove dents in wood! Then he shows us how to make unsightly and outdated popcorn ceilings disappear – not by removing them but by covering them with easy-to-put-up, decorative ceiling tiles. Wait till you see the transformation! That's this week on HouseCalls.

EPISODE # 2317

This week on HouseCalls, Ron demonstrates an innovate solution for when you require a clamp that bears no resemblance to a regular clamp. And it gets the job done surprising well! Then he shares some very useful finishing tips. And finally, he shows us an affordable and easy-to-install coffered ceiling. Normally, these architectural marvels are expensive and challenging to make. This version though, is affordable and well within reach of many do-it-yourselfers. That's this week on HouseCalls.

EPISODE # 2318

This week on HouseCalls, Ron shows us how to avoid a major hazard to children: tipping furniture. Then he demonstrates a "must have" tool for cutting compound miter joints for crown molding. And finally, he'll show us what to do if you have dry rot and want to avoid the cost of replacement. That's this week on HouseCalls.

EPISODE # 2319

This week on HouseCalls, Ron shows us how to get accurate measurements without a tape measure or ruler! Then he demonstrates a picture hanging method that will help you hang your pictures exactly where you want them, every time. And finally, he shows us the different uses for power washers and how they work. That's this week on HouseCalls.

EPISODE # 2401

This week on HouseCalls, Ron explains the benefits of using drywall adhesive when building a wall: it allows you to use fewer fasteners, creates improved sound deadening and it's amazingly airtight. Then he constructs two spacious closets on an empty wall and transforms unused space into much-needed shelf and clothes-hanging storage. That's this week on HouseCalls.

EPISODE # 2402

This week on HouseCalls, Ron replaces high-maintenance dining room carpet with durable easy-to-clean laminate flooring that resists wear and tear. Then he travels to Georgia where he has to cut through an exterior brick to install a range hood. And finally, he installs a backup power system at his home. That's this week on HouseCalls.

EPISODE # 2403

This week on HouseCalls, Ron demonstrates how to patch small holes and imperfections in oak tongue-and-groove hardwood flooring and its finish, to invisibly repair damage or unsightly areas. Then he works with a commercial installer to install a central vacuum system in his own home, with outlets on four floors and hidden PVC piping. That's this week on HouseCalls.
